

**MCHC**  
Managing Medicine

## Test Pass Guarantee Program Application

MCHC is committed to your success in our online course, so much that we have created our Test Pass Guarantee. Basically, if you don't pass the CMCP certification exam after successful completion of our online course on your first or second attempt, MCHC will refund the exam fee paid.

The following requirements must be met in order to qualify for the Test Pass Guarantee:

- 1). Submit completed Test Pass Guarantee application to MCHC within seven (7) days of registration of the course. Submit to [student@coderclass.com](mailto:student@coderclass.com)
- 2). Complete the online course on time, within 6 months of registration.
- 3). Successfully complete ALL assignments. Complete the online course with 85% or higher overall score.
- 4). Sit for the CMCP certification examination with MCHC within 30 days of completion of the course. Date of Certificate of Completion will serve as completion date. You can register for your exam with MCHC once you reach chapter 20 (for bundle students). Make sure you plan ahead to ensure you meet this requirement.
- 5). If needed, sit for the CMCP retake certification exam with MCHC within 60 days of your first attempt.

If you agree to these terms and met all five requirements and did not pass the exam on your first or second attempt, please submit supporting documentation: 1) confirmation of your exam being scheduled, first and second attempt 2) letters or online printout with exam scores for the first and second attempts.

A refund in the amount of \$101 will be issued within four (4) weeks by check. The discounted exam fee paid to MCHC will be refunded as long as all requirements listed above were met, including deadlines.

By signing this Test Pass Guarantee application, I agree to abide by all the requirements listed above. I understand that failure to comply with this policy and deadlines will void this application and I would not be entitled to a refund, regardless of the exam results.
